

Rainaa
Aiwyn

We would like to start off by saying hello but unfortunately it's time to say goodbye. As you guys already know my name is Rainaa and this is Aiwyn. We are delighted to be giving a speech. Firstly We want to take this opportunity to thank our teachers, friends, classmates, our principal, school staff and our school. Homebush West public school is The reason that everyone is here together. Within this school premises, friendships have been formed and broken. But at the end of the day, stage three is a family and we always stay together. I've only been here for two years but this school has taught me responsibility and self organisation. But all of us can call Homebush West public school our Second home.

We've laughed and smiled together and have made it through this awesome adventure. We have become a big family, that have tackled all this in harmony. We've created magical moments that can never be broken, even after the teachers, have last spoken. but the best moments are when your teachers goes off task, sadly it's all in the past. Now we open another chapter of life, that I definitely know we'll thrive. Thanks to the countless assessments we've completed and billions of homework we've defeated.

Here's the list of what we've done, starting with the colour run. Musical and Book week is just the very peak. The redevelopment of this school was actually pretty cool. I've lost count of how many parades we've participated, but I know they were all sophisticated. We can all cheer Hip Hip Hooray when cupcake day was here. Time to get sporty and feel the glory. Like the athletics carnival and basketball, was a great thing I can recall. Kindie Buddy was an awesome time, especially for mine. How can we forget that camp was included, it was the best for me because I'm persuaded.

At this school I have learnt many things like how to be resilient and how to have a growth mindset. In my years of being at this school I have accomplished many things like stepping outside my comfort zone to do things that I never imagined I could do that I actually enjoyed doing..The teachers at this school are amazing they have helped me succeed so many times.

It has been a pleasure to work and learn with all of you. It's sad to think we will be leaving This amazing atmosphere and our amazing teachers. So we have come to the end of this chapter and a new one will be opening. And it's also the end of our speech. We would love to end by saying that each and everyone of us are lucky to be apart of

such a caring and nourishing community. So thank you for everything Homebush West.
We will miss you.
